

FAQ:

Exclusive – what does it mean?

For the release of every music and video, you need the right to show it to the public. With our service, you get the full rights for every release you want to do, like:

- Broadcasting (Radio/TV)
- Social Network (Instagram, YouTube, Facebook, TikTok, and others)

So, you get all the exclusive rights you need. You do not need to worry about it, and you can be stress-free. You get the exclusive rights worldwide and for a lifetime from us.

Exclusive: We compose and produce the song exclusively for you – so you are the only one that has this song/production. You can use the production as often as you wish, including all the mixes!

For your information – about exclusive: Some of our customers use royalty-free music before they come to us. They purchase music from online platforms; then, they have found out another company uses the same music – shock! That is not funny, though. It looks unprofessional.

Why? Because "nonexclusive" means that anyone can use this music when they purchase it. It is "nonexclusive and NOT "exclusive"!!!

With our service, it can't be. You get the exclusive rights of our work, and you can use it worldwide and for a lifetime! That is a big difference!

Different mixes - why: As a bonus, we will make three different mixes of every production. Why? Because we know everyone has different styles or desires. So, we make different mixes so they would be perfect for everyone in the company. One mix is the main mix, the second mix we make without some instruments, and the third mix is with different instruments.

Sync (Synchronization): We love trailer music because we like to go to the cinema. We can make a "VIP Ultimate" service special that is exclusive music for your trailer and videos – in sync with your video and scenes. Included is the sound design when you want! So, it means we compose the trailer music and make the sound design also for your trailer – we only need the video with the dialog of your actors/actress – we make the rest – but for this, please give us more time. Seven days are not enough to make it perfect – thanks. And we need the voice-over text from you!

What made it different to work with us? That is easy to explain: You will not often find one studio in the industry that can offer so many different music styles and voices. We work in our network with partnered studios, so we can offer a lot of music genres, like EDM, Dance, Trance, House Music, Electro House, Dubstep, Jazz in different styles, Country Music, Traditional, Acoustic, Pop, Happy Sound, Trailer Music, Classical Styles, Rock, Hard Rock, HipHop, Rap and several other styles.

Every studio has their favorite style where they are perfect, and we have the connections to all our networking studios worldwide and voice-overs. So, we are different! Few studios can offer a lot of styles, and we are happy that we can make it for you - with our networking partner studios! This is perfect because you come to us instead of searching every time for a new studio when you want to have another music style 😊
